

Yeabsira Genene

Software Developer

SUMMARY

Highly motivated **Computer Science graduate** with strong foundations in **data structures, algorithms, and full-stack development**. Passionate about coding, problem-solving, and building scalable software solutions. Seeking an entry-level Software Engineer role to apply my technical skills and grow within a dynamic development environment.

EXPERIENCE

Independent Full-Stack Developer (Self-Employed)

I have worked independently as a self-driven developer, designing and building complete web applications from concept to deployment. Managing projects solo has strengthened my ability to take full ownership of development processes, solve complex problems, and deliver high-quality and scalable solutions

Back-End Development

I develop robust, scalable, and secure server-side applications, handling business logic, API design, and system integration. My experience includes building high-performance RESTful APIs and managing application architecture to ensure reliability, security, and efficiency.

Technologies:

Node.js (Express), Django, Spring Boot, Laravel

Database Experience

I have strong experience designing, managing, and optimizing both relational and non-relational databases. I focus on efficient data modeling, query optimization, and maintaining data integrity across applications using modern best practices.

Technologies:

PostgreSQL, Prisma, SQL, NoSQL Databases

EDUCATION

Bachelor of Science (B.S.) in computer science

Unity University, Gerji, 2021 – 2026

Graduated: 2026
